BRIEFING FOR SERVICES

Single Status – Development Schemes

Following the implementation of Single Status there is a requirement to update the grades that are currently contained within the development schemes in order that they equate to the new Single Status grades.

The tables below provide details of the Single Status grades that should now apply along with the appropriate hourly rates. Please ensure that when an employee progresses through their development scheme they are placed on the relevant grade and the appropriate grade code is used as detailed within the tables.

Development Schemes – Equivalent Single Status Grades and Hourly Rates

General Scales

Previous Level	Previous SCP	Previous Hourly Rate	Single Status Grade Level	Single Status SCP	Single Status Hourly Rate
